A sincere and consistent student, who is passionate about Cybersecurity, and security in electrical vehicles. Proficient in coding and also have a strong interest in System security and Modern web development and exploitation, Reverse Engineering and Malware analysis

Education

M.tech in Cybersecurity Systems And Networks Amrita Vishwa Vidyapeetham 2024 - pursuing **CGPA: 8.65**

B.Tech in Electronics and Computer Engineering Amrita Vishwa Vidyapeetham, Amritapuri **CGPA : 7.89**

Higher Education

Suguna PIPS

Percentage:80.0

Achievements

Grand finalist in smart India hackathon ,2024,IIT Kharagpur .

Projects

Web Application With Automated Web Scraper and NLP,Accelerating Vulnerability Detection For Security used BeautifulSoup to scrape the required vulnerabilities using CVE format from OEM web site

Heart disease predictor predicts if a person is likely to get a heart disease based on his age, cholesterol level ,weight etc.

Ad-predictor

predicts which ad is likely to be most viewed by the viewers from a list of ads predicts which ad is likely to be most viewed by the viewers from a list of ads

Line Follower

An Arduino uno project, where the robot always follows the black line

Courses

Python Basics (From University of Michigan)

helped in understanding the fundamentals of python language.

Project management (offered by Google)

helped in developing the basic project management skills

Data science (from Plotmydata in anaconda platform using python programming language)

helped in understanding the fundamentals of data science

Community Outreach

SSR Project helping our juniors get a clearer picture of the career paths available to them

Skills

Programming

Python
HTML ,CSS, Javascript
PhP
Assembly Language 8086

Tools

Flare VM tools and Remnux
tools for malware analysis
My SQL
Linux
Forensic tools like Hex editor
,Forensic Tool Kit,File Viewer

Areas Of Interest

Pentesting ,System security,Reverse engineering and Malware
analysis,**Autosar architecture**

Positions Of Responsibilities

Working as mentor in Robotics Club and is also a active member of TRC core committee

Hobbies

Actively following geopolitics,defence news
